# MOVE-OUT INSPECTION

**Upon completion of the move-out process, Marketplace Homes will conduct an inspection during the initial week following your scheduled move-out date.** The inspection date will be coordinated by us with our inspector, and we will notify you via email closer to your move-out date, specifying the date and time. Throughout the inspection, we will meticulously assess the property, capture photographs, and compare the current condition to your move-in checklist to distinguish standard 'wear and tear' from excessive wear and tear and/or damage.

Standard wear and tear refers to the inevitable physical deterioration resulting from regular usage of a property. You will not incur charges for standard wear and tear, as the routine maintenance is the responsibility of the property owner.

However, should you or your guests cause damage to the home, its contents, or accelerate the wear of items such as carpet, floors, or fixtures beyond their anticipated lifespan, the expenses for necessary repairs will be deducted from your security deposit. For guidance on maximizing the return of your security deposit and distinguishing between standard wear and tear versus excessive wear and tear or damage, please refer to Section III.

# Maximize Your Return

Residents frequently inquire about ways to enhance the return of their security deposit. The most important step: leave the home in clean condition. Charges may apply if additional cleaning or repairs are needed. Keep reading to learn what we consider normal wear and tear versus tenant-responsible damage during the move-out inspection.

# WEAR AND TEAR VS. DAMAGE

## WHAT'S THE DIFFERENCE BETWEEN STANDARD WEAR AND TEAR AND DAMAGE?

Standard wear and tear encompasses the inevitable physical deterioration of a property resulting from regular use. Residents will not incur charges for standard wear and tear, as routine maintenance falls under the responsibility of the property owner. However, charges may apply for excessive wear and tear and/or damage that typically necessitate additional expenses for repair, extra labor effort, or result in a diminished property value. Depending on the extent of excessive wear and tear and/or damage, a resident may forfeit a portion or the entirety of their security deposit.

## HOW IT WORKS

Once a resident vacates a Marketplace Homes property, Marketplace Homes conducts a thorough move-out inspection of the home to evaluate standard wear and tear versus damages.

- A comparison is made between the initial move-in checklist and the move-out inspection to identify any excessive wear and tear or damage.
- An itemized list of charges planned to be deducted from the deposit is provided in the Summary on Deposit Accounting.
- The difference in amount (original security deposit minus any expenses) is sent to you.

## MOST COMMON SECURITY DEPOSIT CHARGES

	2 Bedroom	3 Bedroom	4 Bedroom

## WEAR AND TEAR VS. DAMAGE

In the images presented below, those on the left depict items affected by regular wear and tear, while those on the right display instances of significant damage. Please note that this list is not comprehensive, and each home undergoes an individual case-by-case assessment. Our aim is to offer clarity on these two aspects, and the provided examples are for illustrative purposes exclusively.

## CLEANING

Neglecting to restore the home to its initial cleanliness upon move-out may result in incurring a deep cleaning charge.

Our stringent deep cleaning standards adhere to a meticulous checklist, covering areas such as moving and cleaning beneath large appliances, windows, blinds, walls, vents, highlighted fixtures/fans, baseboards, garages, inside of the oven, trash disposal, and more.

If we find that the home doesn't meet the cleanliness standard from your move-in, we'll need to arrange for a redo and charge accordingly. Many residents prefer the convenience of letting Marketplace Homes manage the deep clean, ensuring the associated cost is seamlessly deducted from their security deposit.

Typically, a \$350 charge is applicable for a 2,000 sq ft home.

## PAINTING

An additional charge may be subtracted from your security deposit in the presence of scuff marks, extensive or grouped nail holes, anchor screw holes, mismatched paint colors, textures, sheens, or paint covering a poorly patched hole.

We advise against attempting paint touch-ups and suggest letting us manage it. Engaging in paint corrections may lead to an expanded scope of work, with the resident bearing the associated costs. This encompasses issues such as improper paint or color use, hole filling, paint touch-ups, or complete repainting of walls or rooms.

Differentiating between standard wear and tear and damage for paint-related charges undergoes a thorough case-by-case evaluation conducted by Marketplace Homes.

## TRASH AND PERSONAL ITEM REMOVAL

Not clearing out all trash and personal belongings during your move-out may lead to a deduction from your security deposit. To prevent extra charges, kindly ensure the removal of all trash and personal items upon vacating.

The expense for trash removal varies based on the market and depends on factors such as the type of items left (e.g., large furniture versus smaller personal items), the number of rooms, square footage, and location.

## CARPET AND FLOOR CLEANING

Marketplace Homes strongly recommends professional cleaning for all carpeted surfaces after a resident's departure. If there was a pet in the home, an additional pet treatment is advised to prevent potential charges for lingering odors or stains.

While you have the option to handle carpet cleaning at your expense, it's crucial to entrust this task to a professionally licensed company. Although most vendors align with our standards, any failure to meet them or damage beyond cleaning might result in Marketplace Homes withholding funds from your security deposit for cleaning or repairs. DIY rental carpet cleaning machines are not considered acceptable substitutes, so it's essential to hire a reputable company.

The cost of carpet and floor cleaning varies by market, depending on factors like the number of carpeted rooms, square footage, and location. On average, the cost for a Marketplace Homes resident is approximately \$350 per home with four rooms featuring carpet.
